

Little Pearl's Reflection

(The Hero's Journey by Joseph Campbell)

Little Pearl's Reflection (originally a children's mystery adventure of 40 pages) began in 1997-1998. After a 16 year hiatus (spent searching for an illustrator), I found the perfect illustrator (thank you, Bodil) and decided to publish a 7 book series of 280 pages. I've always know that inspiration came from another realm - as I couldn't believe how the story unfolded and refolded before my eyes. Some days I couldn't type fast enough and other days my computer just died, for no reason other than I needed to rewrite something important.

I thought I'd experienced it all - until last November, when Amazon Publishing KDP 'terminated' my account (all 19 books - English, Danish, Spanish, Learning Activity Books, and Coloring Book).

No reason was given aside from 'Your books violated our Terms and Conditions' 🙄

That familiar voice of inspiration calmly told me to find another publisher, so I did. IngramSpark is fabulous! (Books will soon be available in Target, Barnes & Noble, Books A Millions and many other bookstores).

With the help of a legal firm, my Amazon KDP account was completely reinstated earlier this month - still no reason was given, but I suspect Amazon's new use of AI had something to do with a 'misunderstanding' of my Danish Kindle books.

Today, as I was thinking about the future for **Little Pearl's Reflection** (in addition to the movie version, of course), my voice of inspiration whispered: **The Hero's Journey**. Much to my surprise, although nothing about this should surprise me anymore, Little Pearl's Reflection perfectly follows Joseph Campbell's, **The Hero's Journey** pattern ... whoa! How cool is that! A kid's series about a hero's journey!

Yep, I'm amazed again and so very deeply grateful 🍷🙏🍷

Love always,
Sarah
